Wattstopper

Discontinued - BLANCO2 LOGIC MODULE w/DLM CONTROL CARD

Part No. BLM2-DLM

Blanco Logic Modules from Wattstopper enable fixtures to deliver the highest quality tunable lighting available while offering multiple intuitive control options.

Features & Benefits

Correlated Color Temperature (CCT) Range: 3000-5000K

90+ Color Rendering Index (CRI) across the entire CCT range

In-line spectral capture and storage creates unique color model for each Zhaga-compliant LED array, resulting in consistent CRI and CCT across all arrays

Precision architectural dimming solution from 0.1-100% at any color temperature

On board thermal feedback ensures color consistency of less than 2 MacAdam ellipses from the blackbody curve
