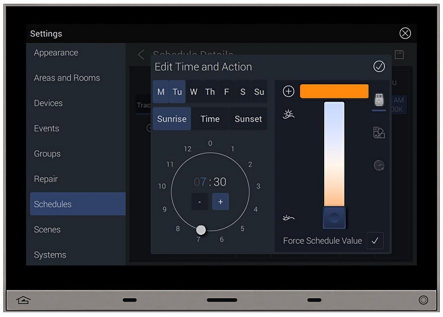
Wattstopper
Equinox 73 LCD Touchscreen
Part No. EQ73-LCAP



Equinox 73 is a high bright LCD touchscreen that is always on and always available. The touchscreen provides immediate control and status of lighting and shades.

Features & Benefits

Hardwired, always connected, always on multi-system dashboard (showing lighting, shade, and divide and combine status via on-screen widgets)

Glass to edge aesthetic and graphical user interface

Access favorite scenes, lighting loads, or shades quickly from the main screen. Swipe left or right to access more favorites

Additional widgets for Schedules, Events, and Scenes are easily created or modified from the touchscreen or app

Programmable tactile switch can provide traditional "on" or "off" function, personalized scene control, etc.

Simple single button control of the entire space using the room button

Home button returns to the main dashboard, no matter where you are in the on-screen navigation

Five main widgets simplify the control of a space or the entire project – Lighting, Shades, Scenes, Divide and Combine, Main Screen/Room Button

Three levels of user access controlled by passwords
