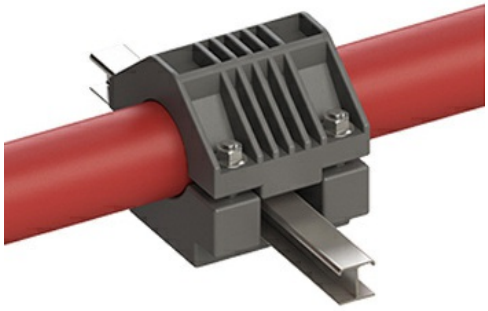
Cablofil
Discontinued - Cablofil Cable Cleats
Part No. P280011



Cablofil cable cleats are designed to restrain cables from lateral and torsional forces supported by ladder tray. In vertical applications, cable cleats provide axial strain relief to cables without damaging the cable sheath. Cablofil heavy-duty cable cleats enclose the cable and the ladder rung with a rigid hi-strength interlocking frame that protects high, medium and low voltage cables from mechanical damage resulting from short circuits.

Features & Benefits

- Suitable for continued use after exposure to short circuits
- Protects against damage to cables and ladder tray
- Nonmetallic material, helps limit hot spots at the location of the cleat due to circulating currents
- Accommodates virtually every type of cable tray rung, including I-beam, elliptical, square and channel strut
- Designs for single or trefoil conductors
- UV and Flame resistant
- Restrains single conductor, high-voltage cables

Specifications

General Info

Product Line	Cablofil	Finish	Other
UPC Number	800388255760	Country Of Origin	United States

Dimensions

Product Width US	7.0 in	Product Weight US	2.1 lb
Product Volume US	0.142 cu ft	Product Depth US	7.0 in
Product Height US	5.0 in
