Wattstopper

DLM Room Controller, 1 Relay, 0-10V Dimming, USA

Part No. LMRC-211-U

LMRC-210 Series Digital Room Controllers include one, two or three relay(s) to switch a total of 15 or 20 amps, a highefficiency switching power supply and one 0-10 volt output per relay for control of dimmable loads including electronic ballasts (Advance Mark 7, or equivalent). They are the foundation of a Wattstopper Digital Lighting Management (DLM) system, and allow integration of occupancy sensors, daylighting controls and switches for energy-efficient lighting control.

Features & Benefits

- Plenum-rated controllers with line voltage relay(s) and 0-10 volt dimming output(s)
- 120/230/240/277 volt and 347 volt models
- Plug to other components using Cat 5e cables with RJ45 connectors eliminating wiring errors
- Plug n' Go automatic configuration for maximum energy efficiency
- Store load preset level and 16 scene preset levels for each load
- Support energy saving manual-on, bi-level, tri-level and dimming control strategies

Specifications

General Info

Product Line	Wattstopper	UPC Number	754182927456
Country Of Origin	United States		

Additional Information

Product Environmental Profile	Yes
