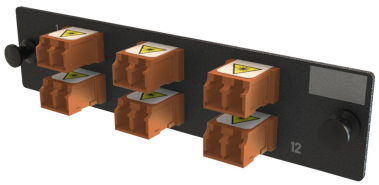
Ortronics

Q-Series, OFP Adapters 6 Keyed Front Keyed Rear LC Duplex Adapters, 12 Fiber, Brown

Part No. OFP-LCD12ZC-J



Legrand keyed LC fiber adapter panels are available in configurations that are keyed on the front only (user&rsquo

Features & Benefits

Compatibility: All Legrand keyed LC fiber products are engineered to be compatible with other Legrand products to provide an end to end, data center to desktop solution.

Keyed front or Rear: Keyed LC adapters have the option to be keyed in the front only (user's side) or on both sides (user's and technician's) depending on the security requirements. Internal keying feature prevents tampering.

Various Footprint Options: Keyed workstation adapter modules are available for TracJack® and High Density Jack (HDJ) style Face plates and surface mount boxes for complete system design flexibility.
