Pass and Seymour

Discontinued - Two Gang Duplex Receptacle Screwless Wall Plate with Plastic Sub-plate, Black

Part No. SWP82BK

Features & Benefits

Molded of rugged .065' thick polycarbonate.

Two-piece plastic subplate bridges recessed boxes and uneven sheet rock. Fixes floating installations.

Automatic alignment pins ensure that devices are properly positioned so that wall plates fit perfectly.

Seamless, sleek, super smooth construction provides no dirt-catching channel around plate's perimeter.

An extra 1/8''' width and height than standard size wall plates for more tolerance in covering ragged sheet rock openings.

For covering patents, see www.legrand.us/patents.
