

The Legrand Shading Systems QzHub3 with Zigbee is the latest in advanced wireless shading. The QzHub3 allows for easy network creation and shade control anywhere in your home. Whether as a stand alone product in conjunction with the homeowner mobile app, or separately as part of an integrated system that will commission the shades onto the device, the QzHub3 technology provides flexible options for end users.

Features & Benefits

- Creates a Zigbee 3.0 network for wireless control of Qadvanced battery and QIS wired shades
- Allows for stand-alone control of shades or integration with automation platforms
- Supports up to 40 devices maximum per ZigBee HA1.2 network if using Range Extenders
- Devices are defined as shades, RZ2 Range Extenders and QdR2 remotes
- Connected to Legrand cloud for future updates
- Power adapter and USB-C charging cable included
- Mobile control via QMotion QzHub App
- Zigbee-operated shades can be coupled with QIS hardwired shades
- Zigbee-operated shades can be installed as a dual shade

Specifications

General Info

Product Line	Shading Systems	UPC Number	842854000849
Application Sector	Residential/Commercial	Standard	IC, FCC, RoHS

Listing Agencies / 3rd Party Agencies

FCC Compliant	Yes
---------------	-----

Additional Information

RoHS Conformant	Yes	Product Has Potential to Contribute to LEED	Yes
-----------------	-----	---	-----

Technical Information

Amperage

2 A

Input Voltage

5 V

Number of Devices

1

Has External Power Supply

No
