

Wattstopper Emergency Lighting Control Unit for KO Mounting Part No. ELCU-200

Wattstopper's ELCU-200 Emergency Lighting Control Unit is a self-contained device that allows any standard lighting control device to control emergency lighting in conjunction with normal lighting in any area within a building.

Features & Benefits

Eliminates energy waste caused by emergency lighting that is always on	Integral push-to-test button activates emergency mode for a true test condition
Connects to EMTS-100 Remote Test Switch or other input to activate emergency on from a remote location	Operates as a control device or as a shunt
Senses local single circuit power failure	Zero cross switching technology for reliability and increased product life
Compatible with Wattstopper occupancy sensors, daylighting controls, lighting control panels, and dimmers	

Specifications

General Info

Product Line	Wattstopper	UPC Number	754182923052
--------------	-------------	------------	--------------

Country Of Origin	China
-------------------	-------

Dimensions

Product Width US	3.0 in	Product Weight US	0.43 lb
------------------	--------	-------------------	---------

Product Volume US	25.8 cu in	Product Depth US	4.0 in
-------------------	------------	------------------	--------

Product Height US	2.15 in
-------------------	---------

Additional Information

RoHS Conformant	Yes	Security	Yes
-----------------	-----	----------	-----
