

Shading Systems
ES Series Shade System
Part No. ES-Motorized

The Legrand Shading Systems ES motorized operated roller shade is an extremely flexible shade solution for single, dual, coupled, and oversized motorized shades. The ES series hardware provides a series of different sized brackets and coupler combinations that allow for standalone and coupled shades for straight, curved, or even 90 degree windows for nearly any sized shade. The motors can operate independently with local controls or together with a Wattstopper lighting control system to provide integrated and automated system control with lighting.

Features & Benefits

- Available with all motorized roller shade features needed for any commercial project
- Allows for native integration with Wattstopper for control of lighting and shading on a single system
- Aluminum tubes ensure no rust stains on the fabric from high humidity locations
- Programmable top and bottom limits
- BMS compatible using BACnet over IP

Specifications

General Info

Product Line	Shading Systems	Application Sector	Commercial
--------------	-----------------	--------------------	------------

Dimensions

Maximum Product Height	450 in	Maximum Product Width	260 in
------------------------	--------	-----------------------	--------

Additional Information

Product Has Potential to Contribute to LEED Yes

Technical Information

Amperage	0.95 A	IP Rating	IP31
Speed	24RPM	Limit Switch Capacity	300 Turns

Voltage

120.0 V

Rated Current

0.95 A
