

Ortronics 24-PORT FLAT SNAP CLARITY 10G CAT6A PANEL WITH 6-PORT MODULES Part No. PPCF610U24

Clarity® SNAPTM patch panels offer improved rear cable management with the addition of an adjustable depth rear management bar. The rear portion of these bars is also removable to provide more working room for the initial termination of panels. After cables are SNAP terminated, the rear bars are attached and adjusted to the depth that best matches the cable and rack selections.

SNAP panels are also supplied with SNAP-on positioning bend limiters. These plastic cable

management aids assist with maintaining proper bend radius of all cables while minimizing the stress on any one cable. This is especially beneficial for cable bundles, as this allows the dissipation of any stress across the entire bundle instead of any one cable termination.

Features & Benefits

Clarity 6A/10G exceeds requirements of TIA/EIA- 568C, ISO 110801 Class EA Edition 2.1, and IEEE 802.3an ratified standard Totally modular cabling system Dramatically faster deployment of horizontal cabling and port replication

Increased flexibility for MACs Reduces total cost of ownership and allows re-use in the future (also reducing waste)

Specifications

General Info			
Product Line	Ortronics	UPC Number	662875673941
Country Of Origin	Mexico	Application Sector	Commercial/Industrial
Туре	Panel		
Dimensions			
Product Width US	19.0 in	Product Depth US	6.76 in
Product Height US	1.75 in		
Additional Information			
RoHS Conformant	Yes
