

radiant Collection radiant® Tamper-Resistant Weather-Resistant 15A Duplex Self-Test GFCI Receptacles with SafeLock® Protection, NAFTA Compliant, White Part No. 1597TRWRNAW

Adding weather resistance to ground fault protection, this outlet was designed for use on patios, pool areas, and other outdoor living spaces. Like all GFCI outlets from the radiant® Collection, it self-tests automatically every three seconds to ensure reliable protection from shock due to ground fault occurrences, and makes it easier to recognize and fix trips right where they happen - no more running to the breaker box. Maximize safety, in style, with GFCI protection featuring the sleek, clean lines of radiant. GFCI protection is required by code in bathrooms, kitchens, garages, basements, outdoor areas, and for any other outlets found within six feet of a sink or water source. GFCI outlets should always be used when replacing existing GFCI outlets during renovation. Made exclusively for use with screwless Wall Plates from the radiant® Collection, sold separately.

Features & Benefits

Protects against shock caused by ground-fault occurrences. Unlike breaker Conducts an industry-leading automatic self-test every 3 seconds. If the device ever alternatives, GFCI outlets make it easier to fix trips with a convenient reset button on fails, the indicator light flashes to signal it should be replaced the outlet Extends GFCI protection to "downstream" outlets when used with feed-thru wiring Equipped with proven SafeLock protection feature: if critical components are configuration.
