

More versatility, **more productivity.**

designed to be better.

Reap big dividends by avoiding the little hold-ups.

P&S PlugTail™ accessories are designed to work for you by offering the most diverse range of solutions available, so you can move on to the next job quicker and increase productivity and profitability.

It's the little things that can hold you up. Legrand/Pass & Seymour anticipates them with products like our P&S PlugTail connectors with pre-stripped leads that eliminate pigtailed and speed installation, and P&S PlugTail Jumper for finger-safe installation. Once the connectors are installed, P&S PlugTail Tester lets you power up and test a circuit any time, while our P&S Shim-Lock device eliminates floating installations in wall-board, tile, and panel walls. And now, we're helping to increase productivity even more with new P&S Mud Ring Covers, which protect both the connectors and the electrical box from contaminants and debris until the device is installed.

P&S Mud Ring Covers

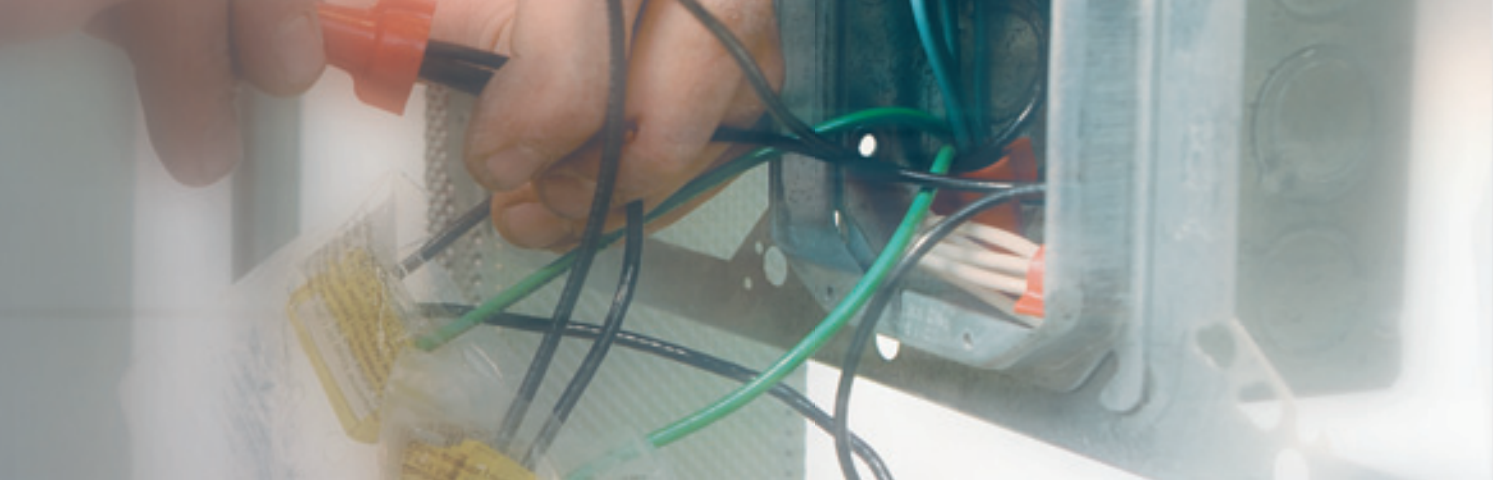

- Protects electrical box opening from dust, debris, and other contaminants
- Removes easily upon installation of the device

P&S PlugTail Connectors

- Full line of pre-stripped connectors with pre-stripped leads for fast installation
- Crimped, welded contacts to ensure solid connections
- Flush fit with device back to leave more room in the box
- Available with WAGO Connectors and Ground Screw for GFCIs, Switches, and Receptacles, in any wire length up to 25"

P&S PlugTail Receptacle Tester

- Enables user to quickly test both the connector and receptacle
- Fast, easy identification of circuit connections
- Easy-to-see indicator lights

PT Tester

P&S Shim-Lock

- Inexpensive, quick fix for floating installations
- Perfect flush mount regardless of wallboard, tile, or panel condition
- Device adjustment depth range between 1/8" to 3/4"

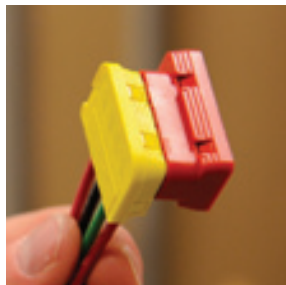

SHL20

P&S PlugTail Jumper

- No exposed terminals
- Fast, simple, reliable finger-safe installation
- Power-up and test a circuit any time once connectors are installed

PTJ

Bulk Packaging

Speed up productivity and minimize waste with Legrand/Pass & Seymour bulk packaging options. Opening and discarding less packages means more time spent on the job, and less waste equals less impact on the environment.
