

HUBBARDTON FORGE®

LIGHT & SWITCH.  
FINALLY  
MADE FOR  
EACH OTHER.

LEGRAND®

# FORGED BY HAND. ILLUMINATED BY TOUCH.

What happens when you combine a 6,000 year-old art with leading edge, touch-sensitive technology? Introducing the Hubbardton Forge line by Legrand, as part of the adorne® collection. Six lustrous metal plates, forged by fire to make adorne's simply elegant switches and outlets a perfect match with Hubbardton Forge's rich array of metal textures and finishes. It's a partnership forged in the fires of creativity and passion.

EVERY  
MASTERPIECE

DESERVES  
A WALL.

Never before have light and switch been so masterfully made for each other. Borne from nearly 2,000 degree heat, impurities are driven from the steel resulting in a stunning textural expression — each as unique as a fingerprint, and finished to a perfect match.

# SELECT YOUR HOME'S DAZZLING FINISH.

Switches and outlets are no longer an afterthought for the masterpiece that is your home. Choose your stunning Hubbardton Forge fixtures, then add the ultimate final touch. Select from six sumptuous options in the new Hubbardton Forge line by Legrand.

## Black

An opaque finish coats this plate's rich textural profile in a color that is clean, crisp, and a classic design standard.

## Natural Iron

Like black, this plate's opaque finish shows off the metal's one-of-a-kind, forge-borne texture underneath a sumptuous silvery finish.

## Mahogany

The first of four translucent finishes, a richly tinted clear coat, offers a window into the metal beneath, telling the whole story of its journey through the forge.

## Dark Smoke

This translucent finish lends a lavishly dusky patina while allowing the natural textural nuances of the steel to have the starring role.

## Burnished Steel

A gorgeous translucent finish accentuates and elevates the metal's natural color resulting in a stunning presentation.

## Bronze

A warm translucent sheen shows off the steel's original finish while drawing out a classically colorful hue.
