

FEATURES

- Cable pathway or other products mounted to base with clamps and screws
- Install on any roofing material or other flat surface
- Widebody design has 1,000 lbs/ft maximum load and provides 5 times the surface to minimize roof material pressure, increase load capacity and provide over 120 square in./ft. for glue application
- UV resistant material
- Composite material allows through bolts or lag type screws (through bolts recommended for HVAC equipment)
- 100% recycled rubber construction assists with building qualification for LEED credits.

APPLICATIONS

CPW Widebody Base is designed for economical support of heavy equipment or where weight loading is a factor. Use for:

- Cable tray pathways
- Gas piping systems
- Electrical conduit
- HVAC Equipment
