

APPLICATIONS

CPWP/CPWS with FAS P or Channel Support is designed for superior support of:

- Wire mesh and ladder cable tray
- Gas and refrigeration piping systems
- Electrical conduit
- Multiple lines
- HVAC equipment

FEATURES

- Install on any roofing material or other flat surface
- FAS Profile supports and secures wire mesh tray without additional clamps or additional hardware
- 14 ga. - 13/16" galvanized channel supports ladder tray, piping or other materials
- Channel can be used to support wire mesh cable tray (secure with FS41 Spring Clips)
- Widebody design has 1,000 lbs/ft maximum load and provides 5 times the surface area to minimize roof material pressure, increase load capacity and provide over 120 square in/ft for glue application.
- 100% recycled rubber construction assists with building qualification for LEED credits.
