

Prewired assemblies save time and make electrical rough-ins for concrete block walls easy. Each FB816 is shipped to you pre-wired, fully assembled and ready for rough-in. Each assembly comes with a clear cover to protect pre-wired P&S PlugTail™ connectors during construction and painting. P&S outlets and switches are installed at finish with a snap.

INSTALLATION

After cutting the proper sized opening in concrete block, place assembly and tighten mounting screws within the concrete block cavity to keep assembly in place during joint mortaring process.

FEATURES

- Choose from a variety of P&S PlugTail connectors, grounded boxes and empty boxes
- Available with single, double or round adjustable plaster rings
- Each plaster ring adjusts to fit block thickness up to 1 1/2" raise
- All assemblies are fitted with a EMT compression fitting and an optional 2 foot EMT stub
- All assemblies include a clear plastic cover to protect assemblies during construction process
- No additional mounting hardware needed
- ETL Listed
