

- Reduces friction to improve expansion and contraction
- Isolates aluminum from other materials

Isolation Pad shown folded when used in a 'guide' application

When Isolation Pad is used in a 'clamping' application, **remove end flange as shown**

- **Material:** (.052") HDPE
- **UV Resistant**
- **Flame Class per UL 94 V-O**
- **RoHS Compliant**
- **Temperature Range:** -100 to 160 deg F
- **Color:** Red
- **Quantity:** 1
- **Construction:** Blanked & Corrugated for easy bending
- **Use with:** 1893 Hold-down Clamp/Guide
