

PW Ladder Cable Tray Accessory **OCK** Outdoor Conversion Kit

Makes ladder tray wall penetrations weather resistant to minimize water intrusions. Removable cover/shield fastens to tray and wall penetration sleeve for the utmost in weather protection.

INSTALLATION NOTES:

1. Install the WPS, which is purchased separately.
2. Use the splice plates to attach the tray underneath the WPS.
3. Install the dropout (included) at the end of the WPS.
4. Position the cover over the WPS & on top of the tray.
5. Secure the cover using the cover connector channels (included).
