### WIRING DIAGRAM

**SELECTIVE CALL INTERCOM INSTALLATION AT-A-GLANCE**

1. Run a single Cat 5 cable to each location where an intercom unit will be installed.
2. Install units in double-gang boxes 56” from the floor at each location and connect Cat 5 via an RJ45 connection.
3. Run each cable back to the enclosure and connect to the intercom module.
4. Connect the power supply and wait for a few seconds as the system auto-discovers.
