

Universal Mounting Plate

AC1040

The Universal Mounting Plate is constructed of Wi-Fi transparent ABS Plastic and designed to securely mount a variety of 3rd party devices into the On-Q plastic or metal structured wiring enclosure. It contains vertical and horizontal lancing locations that can be utilized with the 4 feet of included Velcro to strap down large devices like

an ISP Modem / Router. Screw holes are strategically placed throughout for affixing devices like a fiber optic network unit (ONU), cable amplifier or cable splitter. When paired with a Wi-Fi transparent On-Q Plastic Enclosure, wireless devices can easily be secured inside the enclosure without compromising wireless performance.

FEATURES & BENEFITS

- Allows 3rd party wired and wireless devices to be secured within structured wiring enclosure
- Vertical and horizontal lancing locations provide a variety of mounting options
- Strategically placed screw holes allow devices to be securely affixed within enclosure
- Universal mounting holes accept 3rd party modules to maximize compatibility
- Includes (4) plungers and grommets and 4 feet of velcro strapping
- Constructed of durable Wi-Fi transparent ABS Plastic
