GETTING STARTED WITH YOUR INTUITY SYSTEM

Let's create an activity to trigger a notification when your doorbell rings!

To get started, open the Legrand Intuity app on your mobile device and press the icon.

1. Choose BILL ADMIN and give your activity a name.
2. Choose a day or time for the activity to occur and the trigger reason (the doorbell ringing).
3. Select who receives the push notification and how they'll see it.
4. Choose who controls the push notification (e.g., a family member).
5. Select which devices are affected by the activity.
6. Verify the activity on the summary page.
7. Select the modes applicable to this activity.
8. Press the back arrow to see your newly created activity on the Activities screen.

For technical assistance on your Intuity app, contact On-Q Technical Support between 8 AM and 6:30 PM EST.

Intuity. The smart home just got a lot smarter.
Welcome to the Legrand Intuity™ App.

Legrand’s Intuity app is designed to provide a quick, easy, mobile option for accessing your Intuity home automation system. Adjust core home functions like lighting, HVAC, music, and security with the elegant, easy-to-use Intuity app interface that puts the control of your home at your fingertips.

To help you learn the basics of using your new Intuity system, this brochure provides explanations and screen shots for the icons you will see in the app*. Legrand’s Intuity app is available for download onto any of your iOS and Android smartphones and tablets through the App Store or the Google Play Marketplace.

This brochure features all of the Intuity services available to enhance your lifestyle, including those that can be integrated with 3rd party systems. If you see a product that is not part of your current service, and would like to inquire about adding it to your home automation system, contact On-Q Technical Support at 717-546-5412.

* The screen examples used in this brochure may differ from the screens you see when accessing the Intuity app. Screen displays are dependent on the device used to access the app and the products integrated with your system.
