

# TechChoice EZ Patch™ Flat Pack

**EZ Patch Flat Packs** deliver bulk packaged cords in patch panel quantities, offering a quick and convenient way to introduce new cabling to your network.

## OVERVIEW:

The EZ Patch Flat Pack is an innovative addition to the EZ Patch series, allowing 12 patch cords to be quickly and efficiently distributed from flat plastic packaging, ideal for patch panel applications.

EZ Patch Flat Packs are bagged with patch cords straight and flat, offering a quick and convenient way to introduce new cabling to a data network. Flat Packs offer a cleaner, dust free application when cardboard is not permitted in the data center. Cord memory is no longer an issue, meaning the cords are ready to install neatly in a bundle, without any kinks or curves. Perforation tear strips on both ends provide quick connectivity options and improves cable management during installation. EZ Patch Flat Pack means faster installation, less packaging waste and no more zip or twist ties.

## FEATURES:

- **Bulk packaging:** Reduces installation time and packaging waste. No dealing with individual bags or zip ties.
- **No cord memory:** Cords are ready to be installed in a clean bundle without any bends or kinks from packaging.
- **Plastic packaging:** Ideal for data center applications that do not allow cardboard.
- **Light weight design:** Installers can easily carry the bags over their shoulder.
- **Easy tear perforation strips:** Tears at each end allow for quick connection or easy removal of cords.
- **Cable management:** Bag can be used as a fishing mechanism to route a bundle through a vertical manager.
- **Packaged in 12 packs:** Quantities ideal for patch panel applications.

# TechChoice EZ Patch™ Flat Pack

## TECHCHOICE CAT5E:

PART NUMBER	DESCRIPTION	QTY PER BAG
EZFPS5E03Q12-XX	3ft EZ Patch™ Flat Pack TechChoice Cat5E	12
