

Installer-Friendly Features

Rear stabilizer legs

- Rest against opposing wallboard.
- Control the depth that a box can flex.
- Maintain device rigidity during plug insertion.
- Heavy cross section minimizes wallboard damage.

Side stabilizer tabs

- Keep box from flexing out when plug is removed abruptly.
- Permits use of phantom studs.

Height sight

- Centers box on your reference mark.

Bracket countersink

- Allows #8 waferhead or sheet rock screws with minimal wallboard bow.

Box levelers

- Automatically align box at right angle to stud.

The original Quick/Click®

- Unique, labor-saving design secures device quickly and easily.
- Simply push in and turn the screw one turn.
- Does not strip when over-torqued.

Pass & Seymour

designed to be better.

Contractor-inspired innovative solutions

From the advice of electrical professionals, P&S has a long history of designing innovation into our Box offering for:

- large volume
- easy installation
- better performance
- increased productivity
- fewer call backs

In 1973, P&S introduced the original Quick/Click® into the Box line which does all of the above and eliminates device mounting hole strip out.

Now meet the next series of contractor requested features. Proof-positive that Pass & Seymour is proud to be "the one that works for you®."

**PRODUCT OFFERING HIGHLIGHTS
INCLUDING NEW PRODUCTS AND FEATURES
SPRING 2006**

Wall Boxes

New Construction

- Quick/Click® feature* secures device quickly and easily. Does not strip when over-torqued.
- Largest box volumes in class.
- Rear stabilizer legs and side stabilizer tab.
- Height sight, bracket countersink, and box levelers.

Old Work

- Quick/Click® feature* secures device quickly and easily. Does not strip when over-torqued.
- Metal swing brackets permit installation of box in wall with 1-1/4" thick wallboard down to 1/8" thick paneling.

*Quick/Click feature on catalog numbers beginning with "S" only.

Range & Dryer Boxes

- Factory-installed, internal metallic wire clamp provides dependable strain relief.
- Large cable entry accommodates up to #6 gauge copper or aluminum wire.
- Rear stabilizer legs and side stabilizer tab.
- Height sight, bracket countersink, and box levelers.
- Large 42 cubic inch volume.

4" Square Junction Boxes

- Two factory-installed #8 screws for easy mud ring installation (accepts standard P&S mud rings RC1, RC2, or 4SBC).
- Height sight and bracket countersink.
- Shallow 1/4" depth ideal for masonry-furring strip style walls.

Extension Rings

A box that is set back too far? No problem! Use a set of extension rings that allow trim-out adjustment.

- 1/4" thick.
- Stackable for any depth.
- Can be modified to accommodate three- or four-gang applications.

Low-Voltage Brackets & Divider

- Available in single, 2- and 3-gang, new construction and old work style.
- Old work style has unique alignment feature and metal swing brackets.
- Robust design with spacious openings.

Floor Boxes

- Available in single, 2-gang and round, low-voltage, line voltage and dual-voltage.
- Products suitable for wood or concrete sub-floors.
- Nickel, aluminum or brass finish plates.
- Scrub-water compliant.

Ceiling Boxes

Nail-On & Direct Mount Boxes

- UL-Listed for fan and fixture support.
- Dual mounting accommodates either 2.75" or 3.5".
- Screw lock on direct mount boxes holds screws in box until needed so there's no lost hardware — and away from spiral saws so there are no broken bits.

Metallic Ceiling Boxes & Braces

- Exclusive rotating dual supports for fan and fixtures.
- Broadest line available with convenient top and side knockouts.
