

a step above ordinary for your furniture

RADIANT FURNITURE POWER CENTER

In a constantly connected digital world, there simply aren't enough places to stay charged. Add power and charging directly to your furniture, keeping design in mind. Transform furniture into exactly what people want: a stylish, simple way to charge devices.

Quick and easy installation means nearly every piece of furniture can be powered up and ready to recharge laptops, tablets and phones. A sleek, modern design brings your commercial space a step above ordinary.

Easy-to-Install:

Simply cut an opening, insert, tighten clamps, snap on the bezel and plug in.

Versatile Installation - No Drilling:

A compact, low profile design mounts quickly onto many surfaces using screw clamps instead of wood screws.

Horizontal Surface Options:

Safe for spills and ready to mount in horizontal surfaces like tabletops.

Speedy USB Charging:

Some models include two USB charging ports (5V, 3.1A total) to charge mobile devices as quickly as possible.

USB Type-A and Type-C Combinations:

Several options are available that include standard USB Type-A ports or new, smaller Type-C ports.

Tamper-Resistant for Safety:

Tamper-resistant receptacles to protect yourself and your devices from damage or risk of injury.

Three Flawless Finishes, No Exposed Screws:

Available in three attractive shades to complement the style of your furniture: black, white and nickel. Included bezel prevents exposed screws from being seen.

Lighting Control Option:

Select models feature an optional push button switch that controls a cord-connected lighting fixture.

Don't Lose an Outlet:

The pass-thru plug allows you to connect the unit to any outlet, even one that is already being used. Available on USB versions only in 6' and 10' 14-gauge cord lengths.

FCC Compliant And ETL Listed:

Complies with part 15 of the FCC Rules and is ETL listed to both US and Canadian safety standards.

Nearly half of office workers **(46%)** charge devices more than one time per day at work

77% of office workers find issues related to power and charging options in their workplace frustrating

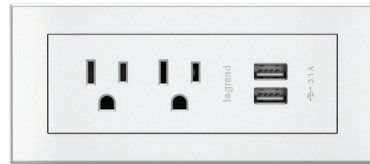

83% of office workers believe it would be more convenient to have an easily accessible USB port to charge devices than to have to use a USB adapter on a traditional outlet

More than **4 in 5** office workers would prefer power and charging options to be directly on their desk or workstation rather than on the floor/wall
