Isolated Class 1 and Class 2
wiring

DIN rail mounting for easy
installation or removal of
Network Controller

DESCRIPTION

The LMNC-ENC1 is a surface-mount NEMA1-rated enclosure with a DIN rail for mounting one LMJA-8xxx-SM Network Controller with a removable cover. The conduit entrances and enclosure sections for high voltage (Class 1) and low voltage (Class 2) wiring are completely separated.

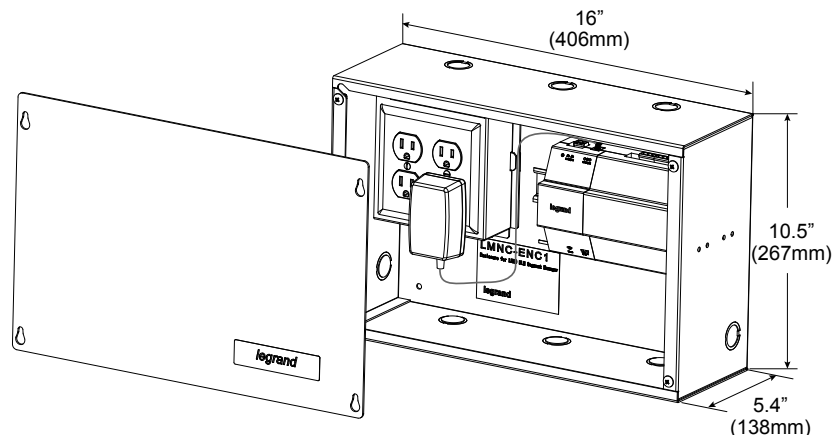

APPLICATIONS

The LMNC-ENC1 allows a Network Controller to be installed in an electrical room or other location with similar requirements. The enclosure accommodates one LMJA-8xxx-SM Network Controller.

SPECIFICATIONS

- Input voltage: 120VAC, 50/60Hz
- Quadruplex receptacle for connection of LMJA-8xxx-SM plug-in power supply
- Barrier between high and low voltage
- DIN rail for mounting LMJA-8xxx-SM includes locking tab
- Includes room to house Wattstopper 5, 8, and 16 port network switches, as well as a RACCESS modem
- Housing: NEMA1 surface-mount enclosure with screw-on cover, suitable for damp locations
- UL and cUL listed
- Five year warranty
