DLM SWITCH BUTTON KITS AND SWITCH BUTTON ENGRAVING

LMSW/DW/PW/DM-KIT-100 SERIES
LMSW/DM-KIT-600 SERIES

Field replaceable buttons for LMSW-100 Series, LMDM-101 Wall Switches, and LMDW and LMPW Wall Switch Sensors as well as wireless switches (LMSW-605, and LMDM-601)

Available for 1-, 2-, 3-, 4-, 8-button wall switches, 1-button dimming switch, 5-button scene switch, and 1- and 2-button wall switch sensors

Choice of white, light almond, ivory, gray, black, and red; includes matching trim ring for complete color change

Customized engraving option

Button kits snap onto existing switches without tools for fast, easy color update or personalization.

Ideal for switch labeling, building remodeling, or re-purposing of controls

RoHS

DESCRIPTION

The LMSW-KIT-100 Series, LMDW-KIT-100 Series, LMPW-KIT-101 Series, LMDM-KIT-101, LMDM-KIT-601, and LMSW-KIT-605 are replacement button trim color kits that are compatible with all Digital Lighting Management (DLM) LMSW Switches, LMDW and LMPW Wall Switch Sensors, and LMDM Dimming Wall Switches. They are available with or without custom engraving.

INSTALLATION

The button kits can be easily installed without removing the switch from the wall. With the wall plate off, the installer simply presses gently on each side of the existing buttons and pulls the trim ring off, followed by the buttons, which are part of a single unit. The new button unit replaces the old one, and the new trim ring snaps on to hold the buttons in place.

ENGRAVED BUTTON LABELS

If labeled buttons are required, complete an order form for custom engraving. Each button can be custom-engraved with exacting detail, using indelible ink applied by a high speed laser etching machine. Full-width button labels for 1-, 2-, 3-, and 4-button switches may include up to fifteen characters. Half-width button labels for 5- and 8-button switches may include up to seven characters.

APPLICATIONS

DLM button kits are ideal for changing the appearance of a switch as part of a remodel or new decoration scheme, or because of damage. Engraved button kits provide an easy, professional-style solution to personalizing switches for any application. Button labels typically comprise the name of the controlled lights or the purpose of the lighting scene (e.g. sconces, downlights and wallwashers, or meeting, AV and whiteboard).

FEATURES

- Kits available for all Digital Lighting Management wall switches, dimming switches and scene switches
- Six color options
- Easy to install in the field without removing the switch from the wall
- Optional engraving with custom text
- The product meets the materials restrictions of RoHS
- Five year warranty on replacement button kits, and all LMSW, LMDM, LMDW, and LMPW models
