	LMSW-102
	LMDM-101
	Junction Box
	CAT5e
	Line Voltage Wiring
	Class 2 0-10V Control Wiring

DEVICES ARE PRESET FOR PLUG n' GO™ OPERATION, ADJUSTMENT IS OPTIONAL.

Sequence of Operation: In this configuration The LMRC-212 defaults to bi-level automatic-on/automatic-off. Load (a) turns on automatically and load (b) defaults to manual-on control; both loads turn automatically off. The LMDM-101 provides dimming control for one or more loads. The LMLS-400 monitors the ambient light in the controlled space and works with the room controller(s) to maintain the design light level. For full operational details, adjustments and more features of the product, see the DLM System Installation Guide at www.wattstopper.com
