

DEVICES ARE PRESET FOR PLUG n' GO™ OPERATION,  
ADJUSTMENT IS OPTIONAL.

Sequence of Operation: In this configuration The LMRC-101 defaults to automatic-on/automatic-off. The LMRC-101 controlling the fan defaults to automatic-on/automatic-off. In this scenario, the room controllers and sensors require **Push n' Learn™** custom configuration. Each restroom will have independant control of lighting but will share control of the fan. For full operational details, adjustments and more features of the product, see the DLM System Installation Guide at [www.wattstopper.com](http://www.wattstopper.com)
