

WATTSTOPPER®

WALLBOX DIMMER

0-10V DECORATOR DIMMER

CODE COMPLIANCE
ASHRAE 90.1 & IECC

FLEXIBLE CODE COMPLIANT CONTROL

The Wattstopper 0-10V Decorator Dimmer (DVLV2) from Legrand is a stylish device that can dim LED lighting in small and mid-sized new construction and renovation projects. It provides building occupants with a clean aesthetic and an easy-to-use device to customize the lighting levels in their application space.

Solutions

- The Manual-On setting provides designers and contractors with a budget friendly ASHRAE 90.1 and IECC Code Compliant solutions
- If you are looking for additional energy savings, the Partial-On feature allows for lights to be turned on at a default 50% level saving money and energy. Users can also adjust the default setting to the best use for the space
- The DCLV2 is a scalable product as it can be used as a 0-10V Dimmer or it can be combined with with a CI or DT Series ceiling sensor to provide occupancy sensing.
- Ideal for retrofit or renovation projects that need to be updated for code without having to use a system lighting controls solution

WATTSTOPPER®

WALLBOX DIMMER

Controls low voltage 0-10V Lighting Loads, Including LED

Decorator Styling, compatible with radiant® screwless or standard wall plates

Last Assigned Recall

LED indicator light glows when device is off for easy location in the dark

Input for CI or DT occupancy sensors or photo sensors

Can be set for Manual-On or Partial On to meet advanced energy codes

Easy to use interface

The DCLV2 is a low voltage (Class 2) device that smoothly dims controlled fluorescent dimming ballasts or 0-10V LED lighting fixtures. The device can be combined with the BZ-150 power pack and a CI or DT Series ceiling sensor to detect occupancy and turn lighting off after the space is vacated.
