CABLEMATE™
Cord Organizers

Hide and organize home computing and home entertainment cabling.

CableMate Cord Organizers provide high capacity cable management in decorator chair rail or baseboard designs. Three internal channels provide additional cord organization. Knock-outs on end caps allow easy cord entry and exit. Paintable.

Covers adjoining sections of baseboard.

Easy to install:

1
If using cord opening, determine location. Cut channel as needed and install cord opening base.

2
Mount channel to wall using screws through the guide holes.

3
Lay cords through the compartment.

4
Snap hinged cover shut and slide end cap over end of channel.
