

# THE FLOOR BOXES WITH THE GREATEST CAPACITY FOR SUCCESS.

When Wiremold Modulink Floor Boxes gang together, anything is possible. These boxes are versatile enough to handle projects small and large, with 1-gang, 2-gang and 3-gang options. And for capacity, a 2" conduit feed brings more power, more A/V and more communications to more open spaces than ever before. While these boxes are recommended for commercial offices, retail stores, malls, and financial and government institutions, the diverse selection of cover sizes and finishes match a multitude of spaces. Finishes range from brushed solid brass and brushed aluminum to varieties of powder-coated aluminum and nonmetallic, so when a project requires the most of everything, Wiremold Modulink Floor Boxes have the capacity and flexibility to succeed.

**GANGS TOGETHER TO PROVIDE  
MULTIPLE SERVICES.**

880MP2 box in a 1-gang, 2-gang and 3-gang configuration

**Depth markings on box exterior**

Faster depth calculation makes for faster installation.

**Cubic inch markings on box interior**

No calculations required to determine capacity for wire fill.

**Ratchet adjusting teeth**

No glue or mechanical fasteners necessary to attach cover flange.

**2" (51 mm) conduit openings**

Provides the largest conduit feed in the industry.

**Reducing plugs**

Reducing plugs have the ability to reduce the 2" hub down to 1½", 1¼", 1", ¾" and ½" conduit feeds, plus blanking plugs to close off any unused hubs .
