

## BRING POWER CONNECTIONS TO EVEN MORE SPACES

### Easy-To-Install Wood Floor Boxes

Both residential homes and light commercial applications are embracing the trend of open spaces. Furniture and fixtures are moving away from the corners and walls, changing the way power is distributed. If power is kept on the wall, cord management issues can occur. Instead, transfer power to the center of the room with aesthetically-pleasing floor boxes designed to blend seamlessly into the space. Ideal for all wood floors and compatible with any floor type.
