Wiremold Electrical Systems conform to and should be installed and properly grounded in compliance with requirements of the current National Electrical Code, Canadian Electrical Code or codes administered by local authorities.

All electrical products may represent possible shock or fire hazard if improperly installed or used. Wiremold electrical products are UL Listed to U.S. and Canadian safety standards, made for interior use only, and should be installed in conformance with current local and/or the National Electrical Code.

**IMPORTANT:** Please Read All Instructions Before Beginning.

**Products Covered:** COM50, COM75

**Step 1.** Remove clamp from Communication Adapter.

**Step 2.** Place Communication Adapter around poke-thru EMT stem section and reattach clamp.

**Step 3.** Thread 1/2” trade size conduit into COM50 Communication Adapter, or 3/4” trade size conduit fitting into COM75 Communication Adapter.

**Step 4.** Attach conduit to fitting and pull wire or cable through raceway.

**Step 5.** Repeat for other side if necessary. Installation complete.
