PDU-TS1 Temperature Sensor

Installation Instructions

Installation Instruction No.: 1007 726 – April 2008

IMPORTANT: Please read all instructions before beginning.

Products Covered: SPDU20-0U, SPDU8-1U, SPDU16-2U

NOTE: Using the sensor with any other than mentioned products might damage sensor and/or equipment to which it is connected.

Connecting the Sensor:
The only operation needed to install and operate the temperature sensor is to connect its jack into the “sensor port” on to the Wiremold smart PDU product. We suggest locating the probe to the hottest known location within the cabinet.
