

WIREMOLD

PDU-TS1 Temperature Sensor INSTALLATION INSTRUCTIONS

Installation Instruction No.: 1 007 726 – April 2008

Wiremold / Legrand electrical systems conform to and should be properly grounded in compliance with requirements of the current National Electrical Code or codes administered by local authorities.

All electrical products may present a possible shock or fire hazard if improperly installed or used. Wiremold / Legrand electrical products may bear the mark as UL Listed and/or Classified and should be installed in conformance with current local and/or the National Electrical Code.

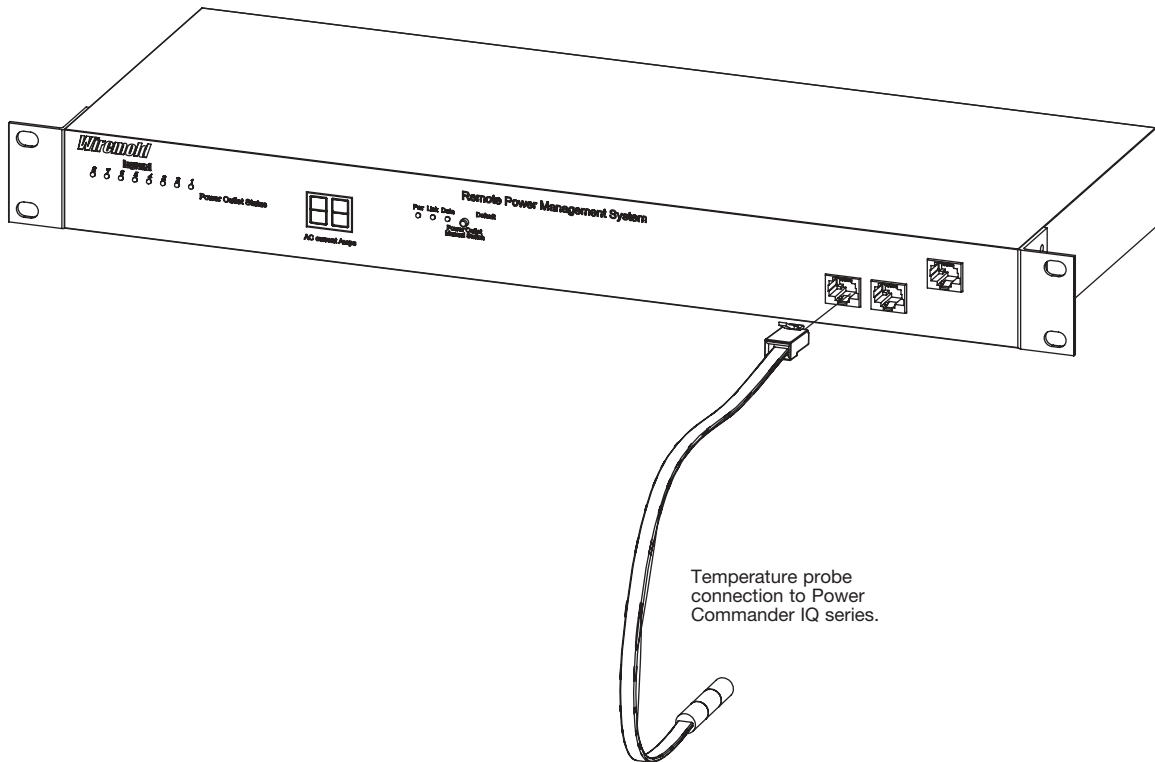

IMPORTANT: Please read all instructions before beginning.

Products Covered: SPDU20-0U, SPDU8-1U, SPDU16-2U

NOTE: Using the sensor with any other than mentioned products might damage sensor and/or equipment to which it is connected.

Connecting the Sensor:

The only operation needed to install and operate the temperature sensor is to connect its jack into the “sensor port” on to the Wiremold smart PDU product. We suggest locating the probe to the hottest known location within the cabinet.
