INSTALLATION INSTRUCTIONS

Wiremold Electrical Systems conform to and should be properly grounded in compliance with requirements of the current National Code or codes administered by local authorities. All electrical products may represent a possible shock or fire hazard if improperly installed or used. Wiremold electrical products are UL listed, made for interior use in dry locations only and should be installed in conformance with current local and/or the National Electrical Code.

G4000N Cabling System Adapter For Wiremold®
G4000 Raceway Systems

TO INSTALL CABLING ADAPTER:

1. To snap adapter onto 8” mounting cover, engage one tab under lip of cover, push sideways and down (in all the way).
   Note: Adapter holecut is offset in the cover to allow assembled connector to clear divider where applicable.

2. Snap adapter locking key into front of adapter.

3. Adapter Guard — OPTIONAL. Drill mounting holes prior to attaching mounting cover. Align holes of the adapter guard with the holes in the cover and secure screws.

4. Snap cover assembly onto raceway.

TO REMOVE CABLING SYSTEM ADAPTER:

1. Remove screws from adapter cover/guard and remove cover from raceway. Reverse step 3.
2. Remove connector and modular jack from adapter.* Remove key from connector. Reverse steps 2 and 1.
3. To remove adapter from mounting plate, insert small screwdriver into slot just above ribbed door (Fig. 5). Pry gently to dislodge the key and remove. 4. Deflect retaining tabs from back of mounting cover and remove. (Fig. 6) *IBM ADAPTER SHOWN (I4N) AVAILABLE SEPARATELY

Cabling network adapter covers.
NOT SUPPLIED—AVAILABLE SEPARATELY
