

WHISPER™ DIMMER SWITCH, 700W INCANDESCENT/HALOGEN, MAGNESIUM

ADWR703HM4 | [adorne](#)

FEATURES & BENEFITS

USAGE

Perfect for anywhere you'd like the combined power of on/off and dimmable lighting control options.

The adorne Whisper Dimmer Switch features an innovative design that uses whisper-soft motion to dim and brighten lights or simply toggle them on and off.

Use on its own to control a light from one location (single-pole operation) or pair with a 3-way switch to control a single light source from two locations (three-way operation).

This 700W version of the Whisper Dimmer Switch is meant for single fixtures and small lighting groups whose total wattage does not exceed the number of bulbs multiplied by their respective wattages (7 bulbs x 100W = 700W total.)

Pair with matching [Whisper Switch](#) to create a uniform look throughout a room or your entire house.

This item is also available in [white](#).

GETTING STARTED

- Time to install: 15 minutes or less.
