12" MODULAR TRACK, WHITE

APMT12W2 | adorne

FEATURES & BENEFITS

USAGE
• Perfect for eliminating countertop clutter and creating a more functional kitchen counter space.
• An under-cabinet base that allows you to add or change out modules with ease.
• The Modular Track comes in three different lengths that plug together end-to-end, allowing you to create an under-cabinet system custom-designed for your kitchen.
• Powered by one of our Control Boxes, the 12" Modular Track includes one blank module and one outlet module and can support up to two Linear LED Lights.
• Module options include standard and USB outlets, our digital music kit and smart device cradles to eliminate countertop clutter.
• Tamper-resistant outlets feature patented shutter-system, keeping children safe by preventing them from pushing small objects into the outlets.
• Features a sleek, white finish.

GETTING STARTED
• Time to Install: 30 minutes or less
• The adorne 12" Modular Track is mounted to the wall underneat kitchen cabinets. All required hardware is provided.
• Tracks plug seamlessly together for easy installation.
• The adorne 12" Modular Track must be installed with an adorne Control Box. Shop the adorne collection to explore options.
