## HORIZONTAL 30° ELBOW

30HB | [Cablofil](#)

---

### FEATURES & BENEFITS

The aluminum I-beam design of ITray is perfect for industrial installations with large diameter cables in long span situations, minimizing total tray width and creating a smooth transition between straight sections and fittings. A structural offset in the sidewall creates strong, mid-span splices that need fewer supports. Each splice snaps in place and stays without holding. Additionally, only four bolts are needed for each splice reducing hardware needs by 50%. These features allow Itray to be installed up to 30% faster than standard tray.

- Material: Aluminum Alloy 6063 and 5052
- Finish: Plain
- Construction: Welded
- Tray Design: Tray construction and markings are per the latest edition of NEMA Standards Publication VE1, CSA C22.2 No. 126
- Connectors: All fittings are supplied with necessary connectors and fasteners
- Fittings heights (H): 4", 5", 6", 7"
