

EZE-FAB™, FLOOR BRACKET WITH 4" SQUARE BOX, TWO OPENINGS AND ADJUSTABLE BACK SUPPORT

EZEF218 | [Cablofil](#)

FEATURES & BENEFITS

Available in preconfigured combinations that satisfy the majority of commercial rough-ins, these assemblies reduce the time you waste on repetitive work in the prefab shop or on the job site.

Arriving pre-assembled in the most commonly used configurations and optionally prewired with our PlugTail switch or receptacle connectors, EZE-Fab prefab assemblies give you a faster, easier and more consistent install on any project.

- Make it easy to prefabricate electrical assemblies for branch circuit wiring.
- Innovative built-in wire manager.
- Manages multiple-sized MC cable types so no attachment to the stud is needed.
- Fast installation anywhere between studs and ensures correct device mounting height without measuring.
- Predrilled mounting holes in the base and slots.
- 18 ga. pre-galvanized steel construction. UL listed.
- Installed by kicking the lower flange under the wall plate.
