

DIGITAL AUDIO BLUETOOTH RECEIVER, NICKEL

AU7100-NI | [On-Q](#)

FEATURES & BENEFITS

With the Digital Audio Bluetooth Receiver (AU7100-XX) accessing the music you love has never been easier. Wirelessly connect any Bluetooth enabled device, like iPods, smart phones, and tablets to your Digital Audio System to stream your favorite music throughout your home. The small AU7100-XX receiver conveniently plugs directly into the front of an AU7007 Global Source Input or an AU7008 Local Source Input, to add Bluetooth connectivity to your home audio system.

Check out the [Digital Audio mobile app](#).

- Wirelessly connect any source to the Digital Audio system via Bluetooth.
- Access your favorite music on any Bluetooth device, like iPods and smart phones.
- Bluetooth 4.0 with A2DP.
- Conveniently attaches to a AU7007 Global or AU7008 Local Source Input.
- One thousand unique device names allow multiple units to be used within a Digital Audio system.
- 3 Available colors (white, light almond, and nickel) coordinate with the Global & Local Source Inputs.
