
IP VIDEO SERVER

F2295 | [On-Q](#)

FEATURES & BENEFITS

The ip video server, working together with the Legrand Category 5 Camera System, allows standard cameras to be viewed through the local computer network or remotely over the Internet from anywhere in the world. The high performance device uses a standard browser, such as Internet Explorer, Netscape Navigator or Mozilla Firefox, and includes its own standalone video recording software.

- Uses a standard web browser - no extra software required for viewing
- View up to 4 cameras remotely over the Internet
- 4 sensor inputs, 2 relay outputs
