

MIGHTY MO FIBER RACEWAY, SLOTTED DUCT, 4" X 2", YELLOW

OR-MMFSL4X2-Y | [Ortronics](#)

FEATURES & BENEFITS

Slotted duct (side exit) is available with and without covers in three sizes. The unique design of the hinged cover allows it to remain in an open position while fiber is installed in the duct. All sizes are 6' 3-3/8" long and are slotted at each end for snapping together or to fittings with a slotted joiner. Side exit slots run down both sides and are spaced approximately every 6 inches apart. Radius guides can be snapped into the side exit slots to provide protection for fiber optic cables exiting the duct.

- Made of Noryl fire retardant plastic:** Certified to UL94VO and Halogen free.
- Straight sections of raceway and covers are ribbed:** Assures a strong, lightweight rigid system that does not sag under heavy loads.
- Available hinged covers on straight sections:** Covers stay open for easy access.
- Snap together slot and joiner system:** Stronger and quicker assembly of raceway and fittings.
- Raceway and fittings available in 5 sizes: A solution for any size and density of installation.

SPECIFICATIONS
