
MIGHTY MO AIR DISRUPTER, 18"H X 24"W

OR-MMADIS1824 | [Ortronics](#)

FEATURES & BENEFITS

[DISCONTINUED] Mighty Mo Air Control products significantly reduce cooling requirements by creating a physical separation between the cold and hot air. They provide a contained supply of cold air to equipment, dramatically reducing active equipment energy consumption.

- The Air Disrupter is a panel designed to modify the air velocity under a raised floor:** Air velocity is greatly reduced and more air pushed up through the tiles, ensuring a consistent supply of cool air to each rack or cabinet.
- Made from Sandel™:** Fireproof, contains no asbestos and is non-combustible at any temperature.
- Available in several sizes:** Fits most any height raised floor.

SPECIFICATIONS
