
PRE-TERMINATED MTP TRUNK CABLE, 24 FIBERS, OM3

OR-TADPLIFZAZAXXXM | [Ortronics](#)

FEATURES & BENEFITS

Ortronics trunk cables route information to the main distribution area (MDA) and zone distribution areas. The trunk cables are fully configurable, available with a variety of cable and connector combinations, including connector type, breakout configurations and jacket material. Each trunk can have multiple fiber connectors on either end and your choice of cable design in between. Ortronics trunk cables are available with most common fiber styles, with MTP, LC, SC connectors and more. These are representative configurations only; if you do not see what you are looking for here, please review the part number matrix within the brochure or contact Customer Service at 1.800.934.5432.

PRODUCT
ENVIRONMENTAL PROFILE

- **Pre-terminated cable assembly:** Eliminates costly field-termination time, resulting in lower installation costs and no cable or connector scrap.
- **Factory-certified performance:** Guarantees field-installed optical performance.
- **Wide variety of cable and connector options:** Allows for greater flexibility when designing your network configuration.
- **Ready to deploy on arrival:** Faster installation and less time on the job site.

SPECIFICATIONS

GENERAL INFO

Available Internationally: Yes
Cable Type: Microdistribution
Category Performance Application: OM3
Color Cable Jacket: Aqua
Number Of Ports: 24

LISTING AGENCIES/THIRD PARTY CERTIFICATIONS

RoHS: Yes

DIMENSIONS

Length (Metric): 1

CORD INFORMATION

Connector Type End One: MTP (F) PC

Connector Type End Two: MTP (F) PC

Fiber Type: OM3

Jacket Rating: UL OFNP Plenum

Cord Length Metric: 2

Cord Length US: 3.28

TECHNICAL INFORMATION

Fiber Capacity: 24

Performance Rating: Tier 2

Equipment Type: Trunk Cable
