### FEATURES & BENEFITS

Basic PDUs provide reliability and simple installation. Standardized power distribution enables cost effective scaling, speed to deployment, and simplifies procurement due to a common platform.

- **Input Plug:** NEMA L5-20P
- **Output Receptacles:** (10) NEMA 5-20R, 12A
- **Integrated Locking Outlets on IEC Receptacles:** Eliminates the need for special power cords that lock at the PDU
- **Rotatable Cord:** Enables maximum flexibility for routing the input plug—simplifying the installation of Zero U PDUs
- **Mounting Types:** Available in horizontal and vertical configurations to ensure power distribution is optimally located
- **Hydraulic-Magnetic Breakers:** Provide less heat dependent local protection and quick recovery from circuit overload, by utilizing a two-step response curve—these breakers provide a delay on normal overcurrents, while tripping quickly on short circuits
