
RETENTION CLIP, PANEL QTY 12, BLACK

CFRC12 | [Legrand](#)

FEATURES & BENEFITS

Contain-IT FLEX was designed to maximize efficiency while creating a predictable operating environment, ensuring maximum reliability of the equipment. The solution prevents bypass airflow and recirculation through enclosing either the hot or cold aisle of a data center.

The retention clips for the Contain-IT system securely hold the containment panels in the beam in either horizontal or vertical configurations.

- **Flexible:** Can be used anywhere along the beam to secure containment panels for a horizontal or vertical installation
