

DISPLAYPORT TO DVI ACTIVE ADAPTER WALL PLATE - IVORY

29452 | [C2G](#)

FEATURES & BENEFITS

DISCONTINUED The DisplayPort to DVI active adapter wall plate converts a DisplayPort video output to DVI using a wall plate, which offers a more secure installation option over traditional adapter dongles. The Decorative style wall plate provides a secure mount within the wall and is not likely to be stolen or misplaced. Use the enclosed three meter DisplayPort cable to connect a PC to the wall plate for video signal transmission and power required for the wall plate's operation.

Signal Specifications

- Signal Support - DisplayPort, DVI
- DisplayPort Specification - 1.1
- Maximum Resolution - 1080p
- Impedance - $100\pm 10\text{ohms}$
- Attenuation -
0.3~825MHz <5db/6m
0.825~2.475GHz <5~12db/6m
2.475~4.125GHz <12~20db/6m
4.125~5.10GHz <20~25db/6m

Physical Characteristics

- Input - DisplayPort
 - Output - DVI
 - Included cable - 3m DisplayPort Cable*
 - DVI Pigtail Length - 60mm
 - Pigtail OD - $5.5\pm 0.15\text{mm}$
 - Dimensions (HxWxD) - 66 x 32.8 x 33.3mm(without cover)
 - Operating Temperature - 0-50C
 - Storage Temperature - -25°C~70°C
- *Must be used in order to support necessary power requirements.
