
18FT SONICWAVE® S/PDIF DIGITAL AUDIO CABLE

29726 | [C2G](#)

FEATURES & BENEFITS

DISCONTINUED The Sony®/Philips Digital Interface is the "red book" standard for digital audio signal transfer. A S/PDIF coaxial cable can carry linear PCM or multi-channel Dolby® AC-3/DTS® digital content. The SonicWave digital audio cable features proper characteristic impedance, fast frequency-independent signal propagation and effective shielding against EMI/RFI. This interconnect uses smooth, flawless, large cross-section silver-plated OFC as the signal conductor.

SPECIFICATIONS

GENERAL INFO

Color: Black
Product Series: SoniceWave
Type: SPDIF Cables
