
RUBBER CONNECTOR GRIP - YELLOW - 20PK

41140 | [C2G](#)

FEATURES & BENEFITS

DISCONTINUED Quickly identify the function of the cable you are making by color-coding with these grips. Makes slick metal connectors easier to insert and remove from mating jacks. Ideal for use with our RCA, BNC and f-type compression connectors and SonicWave RCA, BNC, s-video and 3.5mm precision connectors. Each grip is 10mm wide and has an inside diameter of 11mm so it can be used with a multitude of popular connector styles.
